For more information on program application, please visit SHRDC-MITI homepage at <http://hrd.seoul.go.kr/shrdc> or Metropolis homepage at metropolis.org/training

Sustainable Mobility Training Program

Metropolis International Training Center at Seoul HRD Center
22 – 29 April 2018

■ Program Backgrounds

The role of transport in sustainable development has been continuously recognized since the United Nation's Earth Summit in 1992. Sustainable transport is essential to achieving most, if not all, the proposed Sustainable Development Goals (SDGs) and the 2030 Agenda for Sustainable Development. Although sustainable transport is not represented by a standalone SDGs, it is mainstreamed across several SDGs and targets, especially those related to food security, health, energy, infrastructure and cities and human settlements. *

■ Course Outline (All programs will be delivered in English) **

Title	Sustainable Mobility Training Program
Date	Sun. 22 – Sun. 29 April (inclusive of arrival and departure)
Venue	Seoul HRD Center(SHRDC) of Seoul Metropolitan Government (SMG) Metropolis International Training Institute Headquarters (MIITI HQ)

Sustainable Urban Planning Training Program

Metropolis International Training Center at Seoul HRD Center
13 – 20 May 2018

■ Program Backgrounds

The United Nations Conference on Housing and Sustainable Urban Development, which took place in Quito, Ecuador from 17-20 October, 2017 was the first UN global summit on urbanization since the adoption of the 2030 Agenda for Sustainable Development. Cities are hubs for ideas, commerce, culture, science, productivity, social development and much more; however, many challenges exist to maintaining cities in a way that continues to create jobs and prosperity. These challenges can be overcome in ways that allow them to continue to thrive and grow, while improving resource use and reducing pollution and poverty. The future we want is cities will take opportunities for all with access to basic services, energy, housing and more. *

■ Course Outline (All programs will be delivered in English) **

Title	Sustainable Urban Planning Training Program
Date	Sun.13 – Sun.20 May (inclusive of arrival and departure)

Sustainable Water Management Training Program

Metropolis International Training Center at Seoul HRD Center

17 – 24 June 2018

■ Program Backgrounds

Clean and accessible water for all is an essential part of the world we want to live in. Luckily, there is sufficient fresh water on the planet to achieve this. But due to bad economies or poor infrastructure, every year millions of people and children die from diseases associated with inadequate water supply, sanitation and hygiene. Not only that, water scarcity, poor water quality and inadequate sanitation negatively impact on food security, livelihood choices and educational opportunities for poor families across the world. Drought afflicts some of the world's poorest countries, worsening hunger and malnutrition. *

In this regards, cities should manage the water quality from the water sources by applying scientific pollution control and measurement methods with focus on development of resilient and sustainable urban water infrastructures.

■ Course Outline (All programs will be delivered in English) **

Title	Sustainable Water Management Training Program
Date	Sun.17 – Sun. 24 June (inclusive of arrival and departure)

■ SHRDC & MITI

- Established in 1962, the Seoul Human Resource Development Center (SHRDC) is an institute to provide training programs as well as promotion and recruitment exams for the public officials employed by Seoul Metropolitan Government (SMG).
- Metropolis (World Association of the Major Metropolises) is the leading international association embracing cities and metropolitan regions of more than a million inhabitants.
- Metropolis International Training Institute (MITI) established in 1996 is the training and learning center of Metropolis. Its principal mission is to enhance the institutional and professional capacities of local and metropolitan authorities and their officials for the better public governance. Today, MITI consists of headquarters located in Seoul and four regional centers: Cairo, Mashhad, Mexico City and Paris Île-de-France.

“17 Goals to Transform Our Cities Sustainable with MITI!”

On 1 January 2016, the 17 Sustainable Development Goals (SDGs) of the 2030 Agenda for Sustainable Development – adopted by world leaders in September 2015 at an historic UN Summit – officially came into force. At this juncture, Metropolis International Training Institution (MITI) Seoul has prepared five programs reflecting Metropolis major agendas and strategies standing on the basis of SDGs. We hope these programs could provide the valuable opportunities for our prospective participants to create new and innovative ways to shape our future cities.

Mr. Hashem Alnaser, Amman

“ Training was focused on a lot of things that we need. Dr. Choi was the lecturer and he was incredible. He assisted us a lot. He has been doing very good through his lecture. I would like to recommend anybody to come this training. Seoul is the great city and the city is doing great in this water sector, so it is recommended for anybody working in water sector projects to come here and get this training. It is a great chance for water professionals.”

2017 Sustainable Water Management Training Program Participant

“My experience in Seoul is really enriching and empowering. We’ve learned a lot and we could apply them to our city when we go back home. I’m particularly impressed with Cheongyecheon restoration. The project’s effects are really far-reaching; enhancing the safety, urban renewal, better air quality and environment. At the same time the heritage is being preserved.

2017 Urban Management Training Program Participant

Ms. Shirlyn Bañas-Nogales

Ms. Nora Osama , Cairo

“I am an assistant lecturer at housing and building national research center (HBRC)... Seoul City center you really make a lot of pedestrian streets and transit malls, so it was really impressive... I advise anyone who would like to join this program or have transportation background you can join it, because Seoul now is in the transition point or maybe in the accumulation of different process. It’s turning to be an eco-friendly city, because now it’s the stage of the people-oriented city.”

2017 Sustainable Mobility Training Program Participant
